

During the general election, students approached me with complaints about dishonesty and fraud from Raiders United.

Candidates from Raider's United have called a significant number of students to their phones asking them to vote for member of the Raiders United Team. The phone calls are more than simply candidates asking for votes. According to Aaron Scarpa, harassing and pictures of all members that they wish to have in office are being distributed as well.

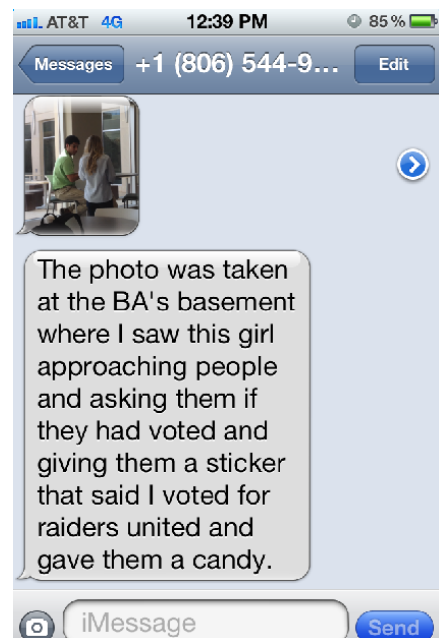

This Violates:

- Sec. 6.08 according to the definition of spamming in Sec. 2.14
- Sec. 7.18 harassing the students in this case is a penalty, and a disincentive to vote for someone else.

Another student (Jose Aguirre) sent my campaign manager a text message complaining about students being approached with candy in the Business Administration building.

This violates:

- Sec. 6.08 according to the definition of spamming in Sec. 2.14
- Sec. 7.18 giving out candy is an incentive that is being applied to vote for Raiders United candidates

Many members of Raider's United have been spotted giving out candy in exchange for votes. This picture proves the candy, and clearly shows the name of the executive candidates Luke Cotton, Jill Berger, and Logan Dickenson.

This Violates:

- Sec. 6.08 according to the definition of spamming in Sec. 2.14
- Sec. 7.18 giving out candy is an incentive that is being applied to vote for Raiders United candidates

I filed a complaint before in which I argued that Mr. Cotton and Mr. Brady had tried to bribe me, I decided not to appeal, but today again I tell you stronger than before that I realize that a corrupt government with Raiders United would be devastating for the future of Texas Tech University. I really do feel frightened at the possibility of a year of corruption, bribery and lack of honesty in student government.

Please consider the evidence and I truly hope that this committee takes pertinent action against the Raiders United team.

Thanks Jose Barraza

PS This is just the information and evidence that I have gathered today, I have other students that have evidence as well. If you need me to bring more witnesses I will be happy to do so.
